Potential Disruptive Activities on Campus
August 13 through August 20, 2022.

A. Art/IMM 2nd Floor Balcony: re-roofing in the court yard continues.
B. Campus Solar Power Project: Work continues on the roof of BSC. The crane was cancelled at Decker for various reasons and is being rescheduled for this week one day: or early the week of 8/21. Once the date is set all concerned parties will be notified.
C. Social Science/BSC: pipe replacements continue between MH 20 (Social Sci.) and 21 (in front of AlMM) continue. The main campus sidewalk will be disrupted as it is saw cut and removed. Once removed for the piping, steel road plates will be installed to keep the walkway opened.
D. Manhole 5 between Library and Roscoe ’34: excavation will remain open for piping replacement.
Note: piping from this manhole to manhole 15 in Quimbys Prairie will be starting 8/15.
E. Bliss Hall Annex and New Res.: inspections are scheduled for Friday 8/5. One day the week of 8/8 the interior of the cab will be replaced in each.
F. Manhole 4: Between Centennial and EAB will remain opened for pipe replacements.
G. Track, Stadium, and Lacrosse: Bleacher demolition and repairs continue
H. Packer Hall of Fame: renovation activities throughout continue.
I. Decker Hall: repairs to the exterior finish system and caulking will continue
J. Social Science Green Hall side: steam piping will be replaced August-October from manhole 20-19. East entrance sidewalk will be impacted for a short period (egress will not be), temporary plates will be installed during the work.
K. Fire alarm fiber cable installations: installation of the new fiber cabling will be happening in the following buildings the next two weeks: Eickhoff, New Res., Green Hall, Packer, Centennial, EAB, Norsworthy, Cromwell and Decker. There will be trucks and cable reels around the buildings during the work.
L. General note: Dublin Maintenance will be on campus street sweeping over the next week.
